Start of Block: Feeling Therm

Q5.1 We’d like to get your feelings toward some people and groups who are in the news these days using something we call the feeling thermometer. Here’s how it works. Ratings between
**50 degrees and 100 degrees** mean that you feel **favorable and warm** towards the person or group. Ratings between **0 degrees and 50 degrees** mean that you feel **unfavorable and cold** towards the person or group. You would rate the person **at the 50 degree mark** if you don’t feel particularly warm or cold toward the person or group. If you have **never heard of the person or group**, just check “**Haven’t heard of this person or group.**”
