physicians

Q1 Please enter your Yale Study Number:
Q2 Please confirm that you are a physician and that you are not taking the survey on behalf of someone else. It is important that only the intended recipients of our mail solicitation, all of whom are medical doctors, participate in the survey.

☐ I confirm that I am a physician and I am not taking the survey on behalf of someone else (1)

Q60 What percent of your clinical practice is in the provision of primary care?

_______ Percent (1)
Q3 We would like to ask you some questions about your typical patient interview.

Q4 In general, upon interviewing a new patient to your practice, how often do you inquire about the following attributes?

<table>
<thead>
<tr>
<th>Attribute</th>
<th>Never (1)</th>
<th>Rarely (2)</th>
<th>Sometimes (3)</th>
<th>Usually (4)</th>
<th>Always (5)</th>
</tr>
</thead>

Q5 Regarding the patient interview, does your practice offer you guidelines or require you to cover a specific checklist of topics?

- My practice provides me with guidelines but no specific checklist (1)
- My practice provides me with an assigned checklist of topics to cover (2)
- My practice does not provide me with guidelines or a checklist / I have sole discretion in this area. (3)
Q6 Consider the following hypothetical situations.
Q7 A healthy-appearing, 38-year old, male patient comes to your office for a physical. This is his first appointment with you. He does not have any known prior chronic medical issues. During the patient interview, the patient acknowledges consuming about 20 alcoholic beverages in a typical week but denies any related physical concerns.

Q8 On a scale from 1 to 10, how serious of a problem would you consider this?
   - Not at all serious (1)
   - 2 (2)
   - 3 (3)
   - 4 (4)
   - 5 (5)
   - 6 (6)
   - 7 (7)
   - 8 (8)
   - 9 (9)
   - Very serious (10)

Q9 Would you typically document this behavior in the medical record and/or discuss it further with the patient? (check all that apply)
   - I would document this behavior in the medical record. (1)
   - I would discuss this behavior further with the patient. (2)
   - I would neither document this behavior in the medical record nor discuss this behavior further with the patient unless I saw more reason to do so. (3)

Q17 A healthy-appearing, 38-year old, male patient comes to your office for a physical. This is his first appointment with you. He does not have any known prior chronic medical issues. During the patient interview, the patient acknowledges using recreational marijuana approximately three times per week but denies any related physical concerns.

Q12 On a scale from 1 to 10, how serious of a problem would you consider this?
   - Not at all serious (1)
   - 2 (2)
   - 3 (3)
   - 4 (4)
   - 5 (5)
   - 6 (6)
   - 7 (7)
   - 8 (8)
   - 9 (9)
   - Very serious (10)

Q61 Would you typically document this behavior in the medical record and/or discuss it further with the patient? (check all that apply)
   - I would document this behavior in the medical record. (1)
   - I would discuss this behavior further with the patient. (2)
   - I would neither document this behavior in the medical record nor discuss this behavior further with the patient unless I saw more reason to do so. (3)
Q20  If you would discuss the behavior with the patient, would you:

<table>
<thead>

Q11 A healthy-appearing, 38-year old, male patient comes to your office for a physical. This is his first appointment with you. He does not have any known prior chronic medical issues. During the patient interview, the patient acknowledges engaging in social smoking, consuming approximately 15-20 cigarettes per week (2-3 per day), a habit that began at age 18. The patient denies any related physical concerns.

Q18 On a scale from 1 to 10, how serious of a problem would you consider this?
- Not at all serious (1)
- 2 (2)
- 3 (3)
- 4 (4)
- 5 (5)
- 6 (6)
- 7 (7)
- 8 (8)
- 9 (9)
- Very serious (10)

Q62 Would you typically document this behavior in the medical record and/or discuss it further with the patient? (check all that apply)
- I would document this behavior in the medical record. (1)
- I would discuss this behavior further with the patient. (2)
- I would neither document this behavior in the medical record nor discuss this behavior further with the patient unless I saw more reason to do so. (3)
Q14 If you would discuss the behavior with the patient, would you:

<table>
<thead>

Q25 A healthy-appearing, 38-year old, male patient comes to your office for a physical. This is his first appointment with you. He does not have any known prior chronic medical issues. During the patient interview, the patient acknowledges having had sexual intercourse with sex workers several times in the last year. The patient denies any physical symptoms related to sexual behavior.

Q22 On a scale from 1 to 10, how serious of a problem would you consider this?

- Not at all serious (1)
- 2 (2)
- 3 (3)
- 4 (4)
- 5 (5)
- 6 (6)
- 7 (7)
- 8 (8)
- 9 (9)
- Very serious (10)

Q63 Would you typically document this behavior in the medical record and/or discuss it further with the patient? (check all that apply)

- I would document this behavior in the medical record. (1)
- I would discuss this behavior further with the patient. (2)
- I would neither document this behavior in the medical record nor discuss this behavior further with the patient unless I saw more reason to do so. (3)
Q28 If you would discuss the behavior with the patient, would you:

</table>
Q46 Next, we are going to ask you a few questions about your practice.

Q45 Consider your patient population. If you had to estimate, what percent of your patients would you say are:

- College-educated (1)
- On Medicaid (2)
- Under age 30 (3)
- Over age 60 (4)
- Generally healthy (5)
- Black/African American (6)
- White/Caucasian (7)
- Non-English speaking (8)
Q47 On average, how many patients do you see per day?
- 0-10 (1)
- 11-20 (2)
- 21-30 (3)
- More than 30 (4)
Q48  Overall, how favorable or unfavorable do you think the impact of the Affordable Care Act (i.e. ACA, Obamacare) insurance exchanges will be on your practice?
- Very unfavorable (1)
- Unfavorable (2)
- Neutral (3)
- Favorable (4)
- Very favorable (5)

Q49  To date, has your practice seen patients with coverage purchased through an ACA insurance exchange?
- Yes (1)
- No (2)
- I don’t know (3)

Q50 Have time or cost constraints compelled you to close your practice to Medicare or Medicaid patients?
- Yes, my practice has reduced the number of Medicare patients it accepts (1)
- Yes, my practice has reduced the number of Medicaid patients it accepts (2)
- No, my practice has not reduced the number of Medicare or Medicaid patients it accepts (3)
Q71  Please indicate whether you participate in the following professional activities:

Q69 - Charity clinics
☑ Yes (1)
